## Spiral Conveyor CO

Spiral Conveyor CO conveys screenings, sludge, sand, waste.

Available with drainage sections and dewatering/compaction zone for screenings and wet waste. Also pipe trough conveyor design.

The rotation of the spiral combined with the materials friction in the trough provides forward movement. The drive can be pushing or pulling with shaftless spiral or shafted screw. The wear lining is low friction plastic or wear steel bars.

Height 300-700mm  
Trough width 200-500mm  
Length 1-50m  
Angle 0-90gr  
Capacity 1-50m<sup>3</sup>/h

MN has hundreds of international references and has worked with machinery within water treatment for 30 years. We offer the most innovative solutions and the most extensive knowledge on screening equipment. We make all our products ourselves acc to ISO & CE standards. We only use certified materials and welders.
